

An ISO 9001 : 2000 Company

MANUFACTURER OF CONSTRUCTION CHEMICALS

SETBOLT

PRODUCT DATA SHEET

FAST SETTING HIGH STRENGTH CAPSULE.

DESCRIPTION:

Setbolt is a cement composite capsule.

USES :

- For immediate repair of water storage tanks and dams.
- To install anchor bolts which are used for fixing of heavy machinery.
- For fixing concrete tunnel lining with rock formation through anchor bolts.

ADVANTAGES:

- provides high strength
- is fast setting
- is highly resistant to sulphate attack

APPLICATION:

Soak the perforated capsules in water for 1 to 2 minutes. Insert the required number of wet capsules into the holes accommodating the capsules. Insert and push the anchor bolt with help of electrically operated drill. Place and fix the cover plate. The entire operation should be completed within 8 to 10 minutes.

PROPERTIES:

Grey Coloured

SHELF LIFE:

Six months in unopened condition. The material should be stored in dry place, under a shed and away from source of heat.
